

Quality Operative

Full time 4 on 4 off shift pattern working 7.00am – 7.00pm.

£12.25 per hour

Excellent benefits & facilities

Allpress Farms Limited is the UK's finest grower and packer of leeks. We now have a new role within the line production team!

The jobholder will work as part of a line production team in a quality-led position which will focus on first line quality and specification checks on the line, ensuring the relevant associated paperwork is completed accurately and on time. The jobholder will need to work closely with the line leaders and quality assurance team to ensure production is always compliant with both customer and site expectations.

The role will best suit someone who is an experienced production operative, who is focussed on product quality & compliance.

Key responsibilities include:

- Work in the designated production area, monitoring product quality and processing material as required
- Monitor and maintain quality standards as per customer specifications
- Re-work product as required and to the relevant expected standard, so that it meets specification
- Complete all required paperwork accurately and as per procedures
- Verify the on-line print set up, as completed by Line Leaders
- Carry out checkweigher and metal detection operations
- Attach correct end labels to finished pallets
- Ensure that Company food safety standards are maintained
- Be proficient in the operation of all flow wrapping machines
- Carry out general hygiene duties
